

Arnaud C. Azenui

Pembroke, NC | arnaudchenuiazenui@gmail.com | (325) 283-8217 | [LinkedIn](#) | [Github](#)

EDUCATION

University of North Carolina at Pembroke

Pembroke, NC

B.S. Computer Science, Cybersecurity Concentration

Expected May 2027

- GPA: 3.97 | Relevant Coursework: Networking, Systems Administration, Data Structures, Cybersecurity
- ISC2 Certified in Cybersecurity (CC) — Certification No. 2607602, valid Jul 2026 – Jun 2029

Abilene Christian University

Abilene, TX

B.S. Computer Science, Cybersecurity Concentration — GPA 4.00

Transferred, Dec 2023

TECHNICAL SKILLS

Programming & Tools: Python, Java, C++, JavaScript, SQL, HTML/CSS, Git/GitHub, Docker, Bash, pytest, GitHub Actions (CI/CD)

Security & Networking: Wireshark, Nmap, Metasploit, SDN architectures, threat-intelligence APIs, network flow analysis, vulnerability assessment

AI & Data: LLM agent evaluation & benchmarking, pass@k analysis, ML classification, NumPy/Pandas, MySQL, Tableau, Excel

Systems & Support: Windows 10/11, Linux (Ubuntu, Kali), device imaging & configuration, A/V systems, Microsoft 365, ServiceNow

EXPERIENCE

AI Research Trainer — Benchmark Task Author & Reviewer | Handshake AI (Project Dynamo), Remote Nov 2025 – Present

- Author Dockerized agentic-coding benchmark tasks (Terminal-Bench 2 / Harbor) used to evaluate frontier LLM agents; delivered 14+ task proposals across ML infrastructure, evaluation, data/ETL, SQL, bioinformatics, and software engineering
- Build deterministic verifiers and seeded data generators; enforce reproducibility via SHA-256 input pinning, tamper-detection self-audits, and byte-match regeneration tests, validated by pass@2 / pass@5 / pass@8 agent trials on GitHub Actions CI
- Peer-review contributors' submissions — 59 tasks across 61 review rounds and 14 domains — triaging ~180 CI artifact bundles and ~530 agent trials and issuing evidence-backed Accept/Revise/Reject verdicts against a five-field rubric

Help Desk Support Technician | UNCP Division of IT, Pembroke, NC

Jan 2026 – Present

- Provide walk-in, phone, and email support to students, faculty, and staff across classroom technology and software platforms; escalate complex issues to Tier 2 infrastructure staff
- Support onboarding/offboarding workflows — account provisioning, equipment setup, and remote assistance via the ITSM Service Portal

Research Assistant — Network Security & SDN Governance | UNCP, Pembroke, NC

Sept 2025 – Present

- Research secure network architectures, governance frameworks, and compliance monitoring in Software-Defined Networking environments
- Collect, extract, and analyze flow-level network data to identify abnormal patterns and potential vulnerabilities; prepare audit-ready technical documentation

PROJECTS

Afrosecured — Co-Founder — React, Python, ML, Chrome Extension, Threat-Intel APIs

2025 – Present

- Co-founded a cybersecurity platform that verifies whether a website is malicious or potentially malicious, combining live threat-intelligence API lookups with an ML classifier trained on URL and page-content features
- Shipped a web app plus a companion browser extension that flags suspicious sites in real time as users browse, aimed at users most often targeted by phishing and scam domains
- Selected as a **Top 100 Semi-Finalist in the 2025 CEO Global Pitch Competition** (Collegiate Entrepreneurs' Organization); advanced through the national semi-final pitch round

LLM Agent Benchmark Suite (Project Dynamo) — Python, Docker, GitHub Actions, Harbor/TB2, SQL

2025 – 2026

- Authored 14+ evaluation tasks probing silent-failure reasoning (off-policy evaluation, judge-bias correction, bitemporal SQL valuation, genome-to-protein translation) with deterministic verifiers validated via pass@k agent trials

SDN-Based Network Security Testbed — Python, OpenFlow, Mininet

2025

- Built a smart-grid security testbed to detect abnormal network traffic and simulated attacks in SDN environments

Unmask AI — JavaScript, Python, ML APIs

2025

- Built an AI-integrated media authentication platform to differentiate real from AI-generated media; deployed full-stack app via GitHub

LEADERSHIP & ACTIVITIES

Co-Founder, Afrosecured | Vice President, NSBE Chapter — UNCP | UNCP Math Club

2023 – Present

- Lead professional development programming for 40+ members and manage chapter operations and industry partnerships
