EDUCATION

University Of North Carolina at Pembroke Carolina **Pembroke, NC**

B.S. in Computer Science | Cyber Security concentration | GPA : 3.97/4.0 May 2027

- Related Coursework: Algorithms and Java Programming, algebra, Calculus, Object-Oriented Programming.

Abilene Christian University B.S. in Computer Science | Abilene, Texas

B.S. in Computer Science | Cyber Security concentration |GPA:4.0/4.0 Transferred, December 2024

- Related Coursework: Computer Organization &Programming, Machine Learning, Artificial Intelligence.

WORK EXPERIENCE/INTERNSHIPS

Research assistant at UNCP, Pembroke, NC **Jan 2026 – Present**

- Conduct research on secure network architectures and compliance monitoring within Software-Defined environments.
- Collect, extract, and analyze flow-level network data to identify abnormal patterns and potential vulnerabilities.
- Prepare structured documentation and technical reports aligned with research and compliance standards.

Data Annotator – Handshake AI **Nov 2025 – Present**

- Review and label structured and unstructured datasets to improve AI model accuracy.
- Ensure data consistency, accuracy, and adherence to detailed annotation guidelines.
- Perform quality control checks and flag inconsistencies for correction.

Research assistant at UNCP, Pembroke, NC **Sept 2025 – Dec 2025**

- Research risk factors, governance frameworks, and internal control mechanisms related to self-driving network security.
- Evaluate instructional material for clarity, accuracy, and compliance with course objectives, ensuring audit-ready resources.

Seasonal Program Support, World Strides, Georgetown **May 2025 – July 2025**

- Supported daily operations for a high-intensity residential summer programs at George Town University
- Coordinated venue setup, program materials, and schedule transitions.
- Collaborated with faculty, education staff, and student-life teams to enforce policies, uphold safety standards.

UX/UI Design Intern | The Sustainable Living Guide **May 2024 – Sept 2024**

- Conducted design audits and produced reports, improving documentation consistency and process auditability.
- Applied risk-based thinking to digital workflows, ensuring compliance with privacy and accessibility standards.
- Developed interactive wireframes and high-fidelity mockups aligned with stakeholder goals and user needs.

Certificate and Skills

- Audit & Compliance: Risk Assessments, Internal Controls, Governance Processes
- Technical Tools: MS Excel, SQL, Python, Tableau, Java, C++, MS Word, Outlook, PowerPoint
- Soft Skills: Analytical thinking, Communication, Problem-solving, Collaboration
- Administrative Skills: Data extraction and reporting, Compliance monitoring

Projects

- Built a small-scale Excel/Power BI dashboard to simulate an internal audit process for a sample dataset
- Personal Portfolio Website: Built an interactive personal site (HTML, CSS, JavaScript) to showcase projects, resume, and GitHub integrations. Optimized for mobile-first design and professional branding.
- Predictive Analytics for Student Success: Analyzed historical academic data to identify factors influencing student success and retention, developing predictive models to enhance retention strategies.

Activities and Leadership

- Vice President- National Society of Black Engineers UNCP Chapter, UNCP Math club.
